from the Canadian Society of Painters in Watercolour. Since then he has earned a reputation as one of Canada's most accomplished and travelled landscape watercolourists represented with paintings in many public and corporate collections worldwide as well as articles published in numerous magazines. From 2005 David has focused his art on the Polar Regions, a journey that led him to circumnavigate both the Arctic and Antarctica. On board research vessels and polar class icebreakers, hiking and even skiing to the North Pole, he continues to work on a project witnessing and recording the beauty of a world that is changing so rapidly.

## ADVENTURE PHOTOGRAPHER - GABE ROGEL

Gabe started pursuing photography following a year of solo travel in Nepal, Thailand and the lower 48. He spent twelve months evading Himalayan

storms, honing his photography skills, learning how to live out of a pick up, and fine tuning the art of making peanut butter and jelly sandwiches. Upon returning from his trip, Gabe solidified his passion for capturing enduring images with a degree in professional photography. More than a decade later, he has yet to lose the wanderlust and passion for creating the perfect image. As an avid skier, climber, trail horse rider, and traveler, he understands his subjects for their drive and appreciates them for their passion. His relationships percolate to his photographs and show the true heart of his work.
