

## THE DAWN OF A NEW ERA

PRESENTING THE OPTIMAL COMBINATION OF HARDWARE AND SOFTWARE WITH ONE OCEAN EXPEDITIONS & AKADEMIK IOFFE

Historically, expedition cruising has seen many faces. We are proud to present the new face of expedition cruising, designed specifically to meet the high demands of today's discerning client.

Designed for Polar Research, the One Ocean Navigator/Akademik Ioffe is modern, comfortable, safe, and ice-strengthened. As one of the only ships still actively participating in true oceanographic science through Russia's Institute of Oceanography in Kaliningrad, we feel this unique involvement benefits both our passengers and our environment. What better way to learn of the current trends in oceanographic studies, than travelling on a ship that carries world re-known scientists to the Polar Regions each year. Designed specifically for Polar research, the Akademik Ioffe affectionately known as the One Ocean Navigator, has all components of a true exploratory polar vessel. By harnessing the exceptional indoor and outdoor space on this vessel, we seamlessly operate all of our adventurous activities.

She's safe, stable, quiet, and highly maneuverable. With bow and stern thrusters, and twin reversible propellers we have the ability to spin this vessel on its own axis as well as stop 'on a dime'. Imagine the flexibility this provides when a magnificent pod of whales is interested in what we are doing...the idea of not stopping, never really occurs to us! Travelers with One Ocean Expeditions have the privilege of a true exploratory experience and the peace of mind that comes with quality, value, attention to detail, and a commitment to a common sense approach put forward in our new cabin categories and pricing. With extensive improvements offering semi private cabin categories, lower berths throughout private facility cabins, and the addition of both a hot water spa (hot tub) and a bouldering wall, our comfort and satisfaction onboard has continued to surpass our own bar of excellence.

Expedition cruising in the Polar Regions just got a whole lot more exciting; with the Akademik Ioffe redefined by One Ocean Expeditions.

- **VESSEL ICE CLASS** – built in Finland for scientific polar research in 1989 with an ice-strengthened hull and Lloyds Registry 1A this ship is the perfect platform for polar expedition cruising. We affectionately refer to her interior design as intuitive, comfortable, bright, clean and exceptionally quiet. With the expansive outer decks and the numerous onboard passenger areas filled with natural light, we have unlimited options for our extensive offering of onboard programs.
- **ECOLOGICAL IN OPERATION** – One Ocean Expeditions' carefully planned tailor-made itineraries are honed to maximize client satisfaction and minimize fuel consumption. Our sole use of Marine Grade Fuel Oil (MGO) in the Antarctic (which is the highest-grade marine fuel with the lowest emissions) is aligned with our efforts to reduce our footprint, and limit our impact on the Polar Regions. Interested in offsetting your voyage? This is offered onboard through our partnership with My Climate/Planetair.
- **TOP NOTCH PASSENGER AREAS** – Theatre style seating and the latest in digital technology make our large presentation room ideal for group recaps and educational presentations. Large windows overlooking the bow deck provide ample light in our well-appointed library, and nearby you will find a cozy sitting area with comfortable chairs and reading lamps. Looking for a pre-breakfast latte or cappuccino? Look no farther than our bar/lounge, which is centrally located on our main deck. Interested in a birds eye view? Come on out to the viewing decks available on each passenger level of the ship. With so much relevant indoor and outdoor space you will always be at the right place, at the right time.
- **WELLNESS CENTRE** – travelling to the ends of the earth doesn't have to mean your fitness and health takes a vacation as well. With our registered massage therapist, fitness trainer, sauna and spa, newly installed bouldering wall, well equipped gym and plunge pool, your body and mind will be rejuvenated and ready for either the next round of activities, or a chance to curl up in a cozy spot in front of our fireplace. Having the option to start and end each day with healthy and whole food options, provide the base for your system to be running optimally. Our skilled culinary team work diligently ensuring that purified and fresh ingredients play a leading role in our exquisite and varied menus.
- **UPGRADED PASSENGER CABINS** – We know sleeping on a proper bed can affect your quality of sleep. We also know that a comfortable bathrobe, nice sheets and a fresh clean cabin make getting into or out of bed a pleasure to experience. Knowing this, we have upgraded cabin berths and provided luxurious bathrobes and extensive amenities in each cabin. Match this with our high loft duvets/duonas, fastidious cabin stewards and their ecologically sensitive cleaning supplies and you may want to stay onboard for another voyage!

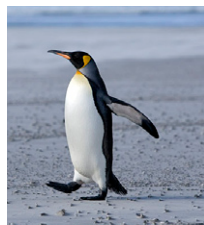

## WE CREATE UNFORGETTABLE EXPERIENCES... YOU CHOOSE WHICH ONES ARE RIGHT FOR YOU

One Ocean Navigator is Antarctica's mobile wilderness lodge, how you explore this pristine wilderness is up to you. One Ocean Expeditions operates a polar program focused on choice and tailor made expeditions, based on what our passengers want to do, every way, every day. Our industry leading Expedition Leader and Guides provide daily options, ranging from where you would like to dine, to where you may want to go by zodiac or kayak on any given excursion. Offering optional activities ranging from sea kayaking, camping, hiking, snow shoeing, indoor bouldering, and zodiac cruising to customized fitness training and certified massage therapy, the options are endless. By embracing each unique voyage we operate, we strive to cover every last detail, so you don't have too. It takes time to listen, and we make the time to ensure your experience is everything you want it to be.

## WHEN WEIGHING THE OPTIONS

Our passenger to staff ratio is one of the highest in the industry and this shows in our small group excursions and attention to detail. Our onboard adventure concierges are specifically trained to ensure your stay with us is unforgettable. Our approach, which is defined by our willingness to show clients the best of the Polar Regions whilst taking care of the finer details, allows us the luxury of touting our own horn. With a potential capacity onboard the One Ocean Navigator of 110 passengers, we feel limiting each departure to a comfortable 96 passengers provides a feeling of additional space and relaxation. Expansive outer decks, and numerous passenger areas known for their comfort just got a little bit roomier. While relaxing onboard or enthralled outside, you will be cared for by our focused team of expedition and hospitality staff who are highly trained in zodiac, kayak, and hiking operations, hospitality, first aid and first response. Our staff revels in caring for each one of our clients on a daily basis with the utmost in professionalism. We carry an English-speaking emergency room physician on every voyage, and our operation has been planned with precision and accuracy to reflect a responsible well-organized product in every aspect. Who wouldn't want to experience the Polar Regions with their own adventure concierge, industry leading staff, and the best program afloat. We pride ourselves on our attention to detail and our robust program featuring safe, educational and life changing experiences, led by individuals intent on creating a unique first-rate experience in the Polar Regions.

*"Two phrases I often used in my company were: 'a business is only as good as the people who work in it' and 'we should strive to exceed our customers expectations'. Your staff were a credit to you. My partner and I had the trip of a lifetime, so as far as we were concerned you can definitely put a tick in both boxes!"*  
— John Rickerby, UK

*"Amazing trip! Could really feel the personal 'professional investment' of the expedition staff. The detailed attention given to the passengers and the detailed itinerary and it showed in the final product! Thank you, Thank you! The voyage of a lifetime..."* — Beth Shak, USA

● **HIGH LEVEL CUSTOMER SERVICE** – we are here for you, and our goal is to ensure your expedition is organized and your expectations are exceeded. If there is something that would make your holiday extra special, let us know. We are experts regarding the finer details and we are passionate about your satisfaction.

● **PREMIUM QUALITY** – Known for their focus on delivering high quality, superior adventure travel, One Ocean Expeditions has set a new standard in the Expedition Cruise industry. With amassed experience exceeding 50 decades of polar expedition travel, One Ocean Expeditions leads the way through innovation and passenger-based reviews. Thank you.

● **PROGRAM OPTIONS** – Adventurous activity and programming is one of our specialties. As the first expedition team to offer commercial kayaking in South Georgia, overnight camping in Antarctica, and overnight kayak-camping in Antarctica, we are proven in our research and we trial all activities for success and satisfaction, prior to offering them as a voyage option. We are proud to offer a new series of activities this year including: expedition photography and our inaugural 'Antarctica off the Beaten Track' departure. On any given departure with One Ocean Expeditions, exciting activities in the field are available for outdoor enthusiasts and extensive onboard options are created for those viewing the Polar Regions from the comfort of the ship.

● **OUR COMMITMENT** – Environmentally, Socially and Operationally committed to offer you the best options available to make your once in a lifetime expedition your best travel experience yet. Knowing our environment benefits from education and scientific study we widely support these areas of development through our onboard programming and our steadfast relationship with the Oceanographic Institute in Kaliningrad, Russia. We also believe that supporting our local economies benefit small business, entrepreneurs, and families that rely on local revenue. Our operational commitment spreads far and wide and is based on our commitment to safety, unsurpassed quality, equality, staff training, and our professional approach throughout the expedition cruise industry.

● **SAFE** – One Ocean Expeditions' industry leading practices, standards and training are continuously tested and improved for your safety, comfort and peace of mind. Confident our practices are first rate we have the benefit of operating a cruise product that is safe, professional and fun. Our expedition leaders and staff are unparalleled in their professionalism, and have the panache to operate our program in a relaxed and jovial atmosphere.
